The Director
LABDOO Grant

Subject: LETTER OF INQUIRY

Dear Sir/Madam, warm greetings and many loving thoughts to you, your colleagues, and loved ones. We are aware that the LABDOO foundation distributes grants supporting a wide variety of categories including laptops. In a preliminary review of your mission, it appears that we meet your criteria in order to appeal for assistance for two laptops for our office and eight for the following schools in the remote areas of North West Region of Cameroon. (G.H.S. Mbuwarr, G.H.S. Ntumbaw, G.H.S. Talla, G.B.H.S. Tatum, G.H.S. Nseh, G.S.S. Ngendzen, G.H.S. Mah, G.H.S. Kedjomkeku)

The Name and contact as can be seen above of our Organization is Educare-Africa, The primary contact person is, Mr. Kwinji Mbile Kevin, Executive Field Coordinator, Tel; (237)77-80-73-36, Email: mbilek2003@yahoo.com

Educare-Africa is a Non-Governmental Organization (501 (c) (3) non-profit charitable, aimed at improving the living and learning conditions of students and teachers in rural areas of Cameroon. It is run by a President, Executive Field Coordinator, and volunteers. Educare-Africa was founded in the year 2000 by Madam Pavla Zakova-Laney and American national after her three years of Peace Corps service as a biology teacher in GSS Tatum. Since then we assisted hundreds of students from almost thirty secondary/high schools and several universities in Cameroon. We assist the students with school fees, basic school supplies, textbooks and other essential school needs. We also assist schools in setting up libraries, renovate school buildings, and provide science lab equipment for schools. Educare-Africa embarks on career counseling and there are prospects to include HIV sensitization as a way of expanding our field of operation for the betterment of these children.

Educare-Africa has a dynamic team made up of persons from all walks of life and has an arm in the USA all working in synergy to improve the living and learning conditions of the above mentioned students.

These computers will assist students and teachers to do research and other administrative works. With the low/no knowledge of computer education in these growing villages, we envisage that this project will be a hallmark for excellence as it will open the students as well as the teachers to the global village. This will also encourage school attendance as many students want to have knowledge of the computer.

We are turning to you on behalf of many secondary/high school students in rural areas of Cameroon and asking for your kind consideration. We believe this appeal fits into your funding guidelines. Every little bit helps. We look forward to hearing from you how we can proceed with the application. Please do not hesitate to contact us if need be.

Thank you very much on behalf of many students in Cameroon for listening, understanding and possible cooperation. Please, feel free to check our website for more information [www.http://educareafrica.blogspot.com/](http://educareafrica.blogspot.com/)

With the Lord's endless love,

KWINJI MBILE KEVIN

Executive Field Coordinator
