=============

1.   Project Summary: (Please provide a brief statement about the purpose that the laptops will serve in your project site.)

   Tanzania Educational Volunteer Group has executed 5years. So far, we have built up 3 computer classrooms. Besides, we also prepare computer class for the teachers and students. We teach them from hardware knowledge to Internet so that they will be able to manage a computer classroom and learn from the Internet by themselves. In the 5th year, we are going to recruit more computers to help the local 3 schools to build up their computer classroom. But some of the schools do not have stable electricity all the time. We would like to change PC into laptops to solve this problem.
