Project No. 2283

Dear Labdoo:

### **LETTER OF APPRECIATION FOR DONATION**

On behalf of the Board of Directors, Principal, Parent-Teacher Association (PTA), staff and students of the Liberia Renaissance Education Complex (LREC), I would like to express our sincere appreciation to you and your supporters for the kind donation of one laptop (including charger and battery) to the school. This will enhance teaching and learning, and motivate teachers and students to 'go the extra mile' in pursuit of knowledge.

We assure you we will use the laptop effectively to serve the purpose and intent for which it was given.

We have more than 350 students at our school every year, and your ability to donate more laptops and smart notebooks to our project will energize us all the more for effective academic work.

LREC was established in 2006 with the financial assistance of international donors. The school was founded as a model school, with the intention of providing affordable, high-quality education to Liberian children and youth. We strongly believe that high-quality education is critical to helping the country move forward. The school currently caters to more than 380 students from Daycare to Grade 12, including compulsory Technical and Vocational Education and Training (TVET) for all high school students.

As an organisation, we aim to:

1. Produce well-educated, well-skilled graduates who are able to find good employment and provide for themselves and their families;
2. Focus on quality, not quantity, in education delivery to break cycles of poverty;

3. Nurture the whole child through school meals, access to a nurse, health education, and providing a safe learning environment; and
4. Provide gender equitable education opportunities, actively addressing the unique challenges associated with getting and keeping girls in school.

The school has now been operating for more than 13 years with ongoing expansion in response to demand for services, scores well-above national average on regionally standardized WASSCE exams, and high numbers of graduates going on to further education and training (>80% within 2 years of graduation).

Although the school's basic budgetary needs are covered by the DEAR Foundation, whose generosity cannot be overstated, our aspirations for developing our educational offerings for Liberian youth go beyond this foundation's current capacity.

For more information about our organization, please visit our website at [www.ourschoolliberia.com](http://www.ourschoolliberia.com) (<http://www.ourschoolliberia.org/>). Once again, thank you for your support.

Best Regards,

Quatama Moore
