MEMBERS OF STAFF

The school has 38 teachers. Amongst these only one is trained ICT teacher against a population of 914 learners that need computer lessons, which is a big challenge.

COMPUTER LAB

The school has no computer laboratory but has turned one classroom to be a computer laboratory, the room is secure with full security. Attached are some of the photos of the turned classroom.

Therefore, we are kindly requesting your organization to assist the school with 50 Laptop computers. Your favorable response will help the learner to acquire computer skills which will help them in their day to day life.

There are only 2 computers making the teaching of ICT very difficult. Hence, teachers teach more theory than practical.
