

Glee Needy School

<https://glee-needy.jimdofree.com/>

The Glee needy school was founded in 2006 and is located near Mtwapa in Mombasa Kenya. We cover the classes from PP1 to Standard 8. In total we have around 350 pupils and 11 teachers. Our school was started to help the needy pupils who were not able to raise the regular school fees. In the last 17 years we were able to provide basic education to many children.

Education is not just about learning. We see every child with its strength and abilities. For us it is important to help our pupils to develop their individual talents, so that they can be successful in life and become responsible members of the society.

Our pupils are in school from around 7:00 to 4:00. After their lessons they stay in school for the 'Games time'. We are happy, that we are able to provide two meals for our pupils in school. In the holidays, we organize two weeks of holiday – program.

Since we are located in a rural area, most of our pupils don't have the chance at home to learn how to use computers. Therefore it is very important for them to learn the basics in school. Our teachers are already trained how to work with computers, but unfortunately at the moment we don't have sufficient computers to teach our pupils properly. At the moment we have classes up to 41 pupils, but we have only 6 laptops, which means around 7 pupils have to share one computer. To teach them properly we would need at least 12 more laptops.

We already have a room, which we could use for computer classes. Furthermore we have a place where we can store and lock the computers.
