

Freidorf 27 July, 2020

Dear Frank,

We hope this message finds you well in these bizarre and peculiar times, and that Labdoo is able to continue their fantastic job despite the terrible position the Coronavirus has put the world in. Here at Mahrberg Library, we have had to postpone our planned library project for Albania and we have completely revised and downscaled our project for Romania. We cross our fingers that we will be able to implement our full projects next year and we are in constant touch with our partners to understand how the local situation is developing.

Thanks to donations from sponsors like you, we were able to accomplish 3 wonderful projects last year; in Cambodia, Vietnam and Nepal.

Please have a look through our annual report and be sure to watch our project videos as well. You can find the link inside the report.

Please take care of yourselves and stay safe.

Many kind regards,

Ann Wilson

Director Mahrberg Foundation
