We need 18 computers for teaching at our school in Nayorku, in the north of Ghana. GES (Ghana Education Service) also has IT lessons in the framework curriculum, some of which are conducted with chalk on the blackboard. Labdoo has already donated computers to us, which are used in the lessons, but since our school has grown a lot in the meantime and we have also built a Junior High School, these are no longer sufficient. With 18 more laptops we can cover the minimum need. After class, teachers and selected students are allowed to use the laptops on the school premises for private purposes, e.g. for writing job applications.
