

## **NORTHRSE COMBINED SCHOOL**

Northrise combined school is a school in the Copperbelt province of Zambia. It is located in Northrise in Ndola district.

The school was built in the year 1959. The first Headteacher was Bill Elliffe. The school is on a single plot, the primary section has (1x 4 and 1x 3 classroom blocks) and secondary section (1 x 4 and 1 x 4 blocks).

Initially the school started as a primary school and was turned into a combined school to cater for the growing population.

The school has 15 classrooms and one early childhood learning room. It runs from early childhood Education to grade 12. The total number of learners is 2582, 1369 girls and 1213 boys.

The table below shows the population of learners by grade and gender:

GRADE	BOYS	GIRLS	TOTAL
E.C.E	65	65	130
1	78	102	181
2	99	101	200
3	117	110	227
4	84	95	179
5	110	111	221
6	112	125	237
7	114	116	230
8	83	115	198
9	79	86	165
10	95	134	229
11	71	94	165
12	106	114	220
<b>TOTAL</b>	<b>1213</b>	<b>1369</b>	<b>2582</b>

### **HANDICAP**

We have one physically challenged learner in grade 8. He is a boy with one leg and uses crutches.

## **MEMBERS OF STAFF**

The school has 106 subject teachers. Amongst these only five are trained ICT teachers against a population of 1836 learners that need computer lessons, which is a big challenge.

## **COMPUTER LAB**

The school has no computer laboratory but has turned one classroom into a computer laboratory. If possible, we would like a computer laboratory constructed.

There are only 12 computers which are no currently working hence making the teaching of ICT very difficult. Therefore, teachers teach more theory than practical, therefore we are asking for if we can be assisted with 35 computers.

We will write to you an e-mail on how to go about with tax -waiver as guided by our government.
