KNOWLEDGE IS POWER

TABLE OF CONTENTS

SCHOOL BASIC INFORMATION

History of the School:

This School opened its doors in 1967 under the eye of Mr. Robertson Namutabo as Head Teacher with secondary classes from Grade 8 to Grade 12.

Location of the school:

This school is located in Chamboli Township of Wusakile constituency in Kitwe district on the Copperbelt Province.

School Enrolment

Currently the school has an enrolment total of **3138,** distributed by gender: **Girls: 1748 Boys: 1390**

School Enrolment by Gender

Grade	Boys	Girls	Total
Grade 8	314	345	659
Grade 9	341	321	662
Grade 10	352	425	777
Grade 11	313	371	648
Grade 12	251	294	545
Grade totals	**1390**	**1748**	**3138**

Here below is the summary of the school's academic performance in national examination conducted the Examinations Council of Zambia the only government examination board for primary and secondary school national examinations. This table highlight the school Pass Rates for the previous three years

Grade Level	2021	2022	2023
Junior (Grade9)	92%	97%	95%
Senior (Grade12)	80%	87%	95%

School Staffing

Chamboli Secondary school has a total of **78** teacher among whom **54** are female teachers.

Needs and Projects of the School

1. Computers (laptops & desktops)
2. Rehabilitation of science labs

School Infrastructure

S/n	Desciption	Quantity
01	Class rooms	26
02	ScienceLabs	03
03	Computer Lab(improvised)	01
04	School hall	01
05	Departmental Rooms	09
06	Workshops	02
07	Specialized Rooms	01
08	Staff Room	01

Computer Section staffing level

The ICT section has four well qualified teachers.

S/N	Name	Subject currently teaching	Subject trained to teach
01	Mr. Choshi Cloud	ICT	ICT
02	Mr. Sumaili Jephiter	ICT	ICT and Physics
03	Mr. Kalunga Bernard	ICT	ICT and Social Studies
04	Ms. Mulubwa Catherine	ICT	ICT

Equipment & Infrastructure

The school has designated one room as a computer Lab. In terms of Equipment, the Computer section has:

- 03 Working desktop Computers
- 08 non-working desktop Computers
- 01 white board

Interior of the School Computer Laboratory:

With only 3 working old type desk top Computers against a class average of 100 plus pupils translates into a pupil to computer ratio of 10 pupils to 01 Computer. This learning experience has posed serious challenges to both ICT teachers and pupils to adequately afford each learner a hands-on experience during Computer practice sessions (Practical's). In addition the computers that the school has are outdated machines many of which cannot run newer application and operating systems (OSs).

It is against this on-going challenge that our school makes this request for Computers from your Organization to help mitigate the challenge of inadequate Computers in our School.

Exterior of the school Computer laboratory

This lack of sufficient computers in at our school is likely to worsen when the 2023 revised curriculum is implemented, because this revised curriculum, has made ICT compulsory from Form 1 to Form 4. We even wish the school should have 2 computer labs with a minimum of 100 computer in each lab. As shown in the enrolment table if the situation remains the same, it certainly means 10 pupils sharing 1 computer. This would negatively impact on the acquisition of computer skills by learner. It is our sincere hope that your organization will come to our rescue.

We therefore request for computers and a projector from your organization.

We look forward to hearing from you.

Thanking you in anticipation.
