1. Project title: Projet olivia,

Name of school: Nsoni Center

The Olivia project is a reintegration project.

Nearly 80 Teenager girls, single mothers and disabled street children receive english, computer science, tailoring and other lessons. The little ones are looked after by Mrs Bernadette Mayimona who regularly offers them a meal and takes care of schooling. Child sponsorship has been in the place for months.

2. The fondation wishes to build a medium-term school for better care for the children in distress. We like to rent some more learning-rooms and to expand the project, so we can take care for more children. The education of this young girls, women and streets kids is very important for our organisation. Because of this we need some more laptops and PC's fort he project. With the laptops there is training to use computer, word, excel and how to browse in the internet.
