1. Project title or name of your school, project, or NGO - A short title or description for your project(*): EFFORTS TO ENSURE SCHOOL RESUMPTION IN GHS AKWAYA.

The project entails efforts to ensure schools resume in akwaya , after close to 6years of no schooling due to socio economic crisis in the two English speaking regions.

Due to the remoteness of the area with the lack of basic facilities the use of laptops in schools will be a massive pull factors to the local population especially due to the fact that students in this area have never seen a laptop before.

2. Project Description - Please explain about your project and how you will use the laptops (*):

The project entails finding pull factors and attractive equipment and techniques to encourage school resumption in akwaya.

Akwaya sub division, is one of the most remote and enclave localities of the south west region and the most affected in terms of the socio economic crisis. The region lack social facilities like roads, portable water and electricity. The schools operate in a difficult environment.

With an emerging society and ever computerized community today the students in this area have never seen what is called a computer, talk less of a laptop. It is on this background that I am applying for laptops so that the students can integrate in the 21st century educational system.

These laptops will be use to do practical lessons usually taught theoretically as well as enhance some skills in the students.

It will be a massive pull factors for school resumption as most student will enroll back to school just to be able to know how to use computers.
