1. Project Summary:

We are a youth initiative in Ivory Coast that started 6 years ago. We are training young entrepreneurs so that they do not always remember that they only have to become state officials after school, they can find their own way. For this we have built a building to train all these young people in a single place here. The more time passes, the more candidates want to join our initiative. The IT material that we bought at the beginning of our activities is no longer sufficient to meet all inquiries. To efficiently complete and spread our training work, we need a few laptops from your organization.
