

1. Project Description: Roscher Youth Development Centre in Rumphi (<https://roscheryouthdevelopment.org/>), northern part of Malawi was founded in 2002. It was financed by the German Embassy in Malawi. The centre is directed by Mr. Moir Walita and Mr. Afiki Mbewe. Within the past 20 years, many different educational projects were realized. The centre is supported by several organizations in US and England, in the main by the German organization Support Malawi Heidelberg e.V. Computer training is one of many education topics for elder students of secondary schools. Otherwise these young people wouldn't have the opportunity to work with computers. It's normal for us, it's totally exceptional for Malawi because people simply don't have the financial abilities.

With laptops from Labdoo.org, Roscher Youth Development Centre is able to offer a rare possibility by providing computer training totally free of charge.
