2. Project Description –

Global Muslim High School Naggalamais a private Mixed Day and Boarding Senior Secondary School that was founded 11 years ago. Global Muslim High School Naggalama is registered with the Ministry of Education and Sports (REG NO. PSS/G/91), UNEB Center No.U3258, with Ordinary &Advanced Level teaching Secular plus Theology Studies.

We are located in Uganda,East Africa, Central Region, Mukono District along Kalagi-Kayungahighway in Naggalama Trading Center.

Worldwide modern technology teaching is trending and acquiring computer skills in our normal life at all levels including employment, business, agriculture and other sectors.

The Government of Uganda through the Ministry of Education and Sports emphasizes this program and computer is among the taught subjects in all Education Institutions. However this is still hectic to some Schools due to lack of enough resources, electricity, poor infrastructure and other factors to cab this intervention.

Global Muslim High School Naggalama welcomed and initiated a Computer Teaching Project for over four years now and computer is among our taught subjects. We Register our learners & sit for their Computer National Exams at all levels. Our computer lab is currently equipped with 8 computers with 2 printers but due to the increased number of Students yet more also wish to offer computer subject/skills over the limited resources practically this project was hence initiated.

Our goals for our computer projects are as follows;

- a. We already have a teaching syllabus curriculum program from NCDC with the ministry of education & from which we base on teaching our learners.
- b. In a long run if we acquire moderate/enough resources/ICT equipments, the school academic committee designed a time table to transform computer studies to a compulsory subjects to all learners.
- c. We are to introduce a E-Library programme to our school to provide our students with enough basic resources.
- d. We hope to introduce internet services to our teachers and learners for a broad research and also to our community at large.
- e. We designed a holiday programme for the other learners/residents in the community which is to be attended to in Schools holidays times but however our resources are still limited. Here, We hope to introduce other short courses like computer maintenance, graphics design, photography , videography among others to learners as these are income generating areas that can help learners set up their businesses thereafter.

Note: We have no designed costs for this venture because students acquiring computer skills is a vital step as it is required in most of our future designed school program which we advancing following the national and world wide order of the day.

We already have a teaching syllabus curriculum program from National Curriculum Development Center with the ministry of education & which produces study guides and protocol from which we base on teaching our learners. Our school is equipped we experienced teachers in the ICT field and more is yet to be employed upon acquisition of more resources to fully provide students with these computer skills.

We also attend National Seminars as far as this program is concerned which are brought by the Uganda Government plus 1st world Schools Nationally.

All these goals can be achieved upon acquisition of the above equipments and teaching ICT skills to learners which shall enable them enjoy other computer associated benefits.
