Sierra Leone has been long deprived of lots of opportunities especially to do with technology related opportunities and the **Every Child on Laptop** will be a way out. We have been effectively campaigning for the welfare of children in our schools so that the children in our community will carry the message and develop a transformed mind. As a school in a well-known community in Freetown, We want to make sure we inject the ideology of nationalism and discourage violence, drug abuse and indiscipline to their school work. We usually use the time on devotion to sensitize our pupils, our teachers promote the right morals in their class rooms and we train some of our children to contribute to media talk shows.

We intend to assign the laptops to pupils, train them on how to properly use the laptops and make necessary daily checks on the status of the laptops. This will give us the opportunity to give them the capacity to become well users and maintain the devices.\*):
