Your Labdoo account user name (<https://www.labdoo.org/user/register>):

Project Site: **YAOUNDÉ 6, CENTER REGION - CAMEROON**

1. Project title or name of your school, project, or NGO - A short title or description for your project(*):

Project title: Yaoundé 6 ICT Education for All

2. Project Description - Please explain about your project (*):

Yaoundé 6 ICT Education for All is a project aimed at empowering less privilege children, youths and women with adequate computer knowledge, skills that will enable them to meet up with the challenges of the new era of information rich society driven by computer technology thus bridging the gap of digital illiteracy and equally enhance effective teaching-learning process through Computer Assisted Teaching and Learning.

It is not a secret that Yaoundé, the capital city of Cameroon which may sound like the safest place in the nation, has recently experienced a high increase of population of Internally Displaced Persons (IDPs). Today we are counting more than 7,000 IDPs since the socio-political crisis started in the two English speaking regions of Cameroon where schools were perturbed and their population has moved to Yaoundé center Region for safety.

Internally displaced persons and educational refugees are flooding the capital city every day, especially the Yaoundé 6 Community which is still a remote area abandoned to itself where everybody can afford basic needs.

So far the Yaoundé 6 Community has been equipped with 8 school, six (6) build by the community and two 2 by the government but none of this school actually have a computer center to train their pupils and student on ICT education, and 90% of students in those school are all Internally Displaced Persons IDPs whose families can't even afford to send them to professional ICT centers

We believe that IDPs children must have access to education even in the face of this crisis and that is why we have decided to take the forefront to help them become ICT viable. The organization exists to build human resources competent to meet the eminent challenges in today's society. We believe that in the process of building human capacity that can meet the challenges of the current society of today driven by Information and Communication Technologies, the teaching of ICTs must also be more of a practical subject that offers students real experiences of manipulating and working directly on a computer practical and not a mere theoretical concept.

The project is aimed at empowering less privileged children, youths and women with computer knowledge, inculcating in them the spirit of entrepreneurship through ICT related training which will help reduce the rate of unemployment in the community and facilitate their integration into the digital world.

Our goals:

1. To promote the importance of ICT education in favor of the less privileged
2. To offer free computer training to all Internally Displaced Persons (IDPs) in our community
3. To set up a multimedia center fully equipped that will help offer free training to all the less privileged students in our community without gender bias.

4. To empower young graduates with professional computer training such as graphics design, web development, video editing, computer maintenance and many more.
5. To inculcate in them the spirit of entrepreneurship through the use of computer technology as a means of reducing unemployment in our community.
6. To serve as a liaison to all the community schools that have no means to promote ICT education in their campus.

How will you use the laptops? (*):

The requested laptops will help in facilitating the teaching of ICT education in our community; hereby equipping children with skills that will enable them meet up with the challenges of the new digital world driven by computer technology. The laptops will equally enhance the effective teaching learning process through computer assisted teaching and learning. The laptops will be used strictly for education. The laptops will therefore be used to train Internally Displaced Persons (IDPs) children and orphans in various aspects such as using a computer to type, draw, calculate, design and perform other basic operations.

How do you plan to train your teachers?

Our teachers are young ICT professionals already trained by some higher institution who have all decided to offer their voluntary service to the vulnerable youth and children in our community especially to the IDPs.

How will you maintain your laptops?

Among our teachers we have some technicians who were trained in computer maintenance; they will be the one in charge of repairs and any related issues

3. Number of students(*): **We have approximately 875 students**

4. Number of teachers(*): **We have 28 ICTs teachers as for now**

5. Claimed IT equipments (*) **55**

5.1 Number of Laptops needed(*): **40**

5.2 Number of eBook Reader needed: **5**

5.3 Others needed (Tablet-PCs etc): **10**

5.4 Additional comments:

6. On Site Contact Information / project manager. Please provide at least one way to contact (*):

6.1 Full Name(*): **KENFACK FOLENG ALEX**

6.2 Phone(*): **+237 677803168 / +237 655321962**

6.3 Email(*): trinityfoundationcm@gmail.com

6.4 Physical address of Organization (street, city, zip code, country...)(*):

Office: Carrefour Abega, Mendong - Yaoundé Cameroon, Zip code 237

6.5 GPS coordinates (click the link to find the coordinates: <https://www.gps-coordinates.net> or <https://support.google.com/maps/answer/18539>)(*):

My location coordinates are:

Latitude: 3.856794 / N 3° 51' 24.457"

Longitude: 11.511398 / E 11° 30' 41.034"

7. Language: **English**

7.1 Local / Preferred language(s)(*): **first language, English - Second Language French**

7.2 Additional information about language(s): **Cameroon is a bilingual country but 85% of our target populations her are English speaking.**

8. Project Location - street, city, state/province, country, zip code(*):

Office: Carrefour Abega, Mendong - Yaoundé Cameroon, Zip code 237

9. Access to Internet(*)? **YES**

9.1 Access to internet (yes/no) **YES**

9.2 Wired/cable (yes/no) **YES**

9.3 Wireless (yes/no) **YES**

10. Conditions about the room where the laptops will be installed:

10.1 Is the room secure? [yes / no + brief explanation] **Yes much secured**

10.2 Can the room be locked in a way that the supervisors (e.g. teachers) can control access? [yes / no + brief explanation] **YES**

10.3. Is the room weather-proof? (e.g. does the room protect the laptops from rain, sand, etc?) [yes / no + brief explanation] **YES**

11. How did you hear about Labdoo?:

--Search Engine (e.g. Google) λ

12. Picture(s) of the school, students, teacher, etc with this Request Form. Please send as file(s) (*):

The picture will be uploaded to your project site

***The solicitation of a Labdoo laptop request implies that, upon receiving the laptops, the recipient agrees with the "Labdoo Laptop Recipient Agreement".

Labdoo Laptop Recipient Agreement: **Agreed**

Dear Laptop receiver:

We are very pleased to have the opportunity to contribute to your project by providing technology to help bridge the digital divide.

With every right come responsibilities. Technology, when adequately used, can provide very powerful means to aid those that are most in need. But if used improperly, it can also damage our environment. By receiving the above items, you are automatically accepting to abide by the following Labdoo global responsibilities:

(1) The items received will be used only for the purpose described by your organization at the time you solicited this donation.

(1.1) If you intend to use it for a different purpose, you will contact first the Labdoo team at contact@labdoo.org.

(1.2) Only schools and projects may claim for Labdoo computer donations and not by individuals.

(1.3) Donated items may only be removed from school ground with admittance of Labdoo (example, teachers cannot take laptops outside school). If Labdoo reviser visit your project and discovered donated items are missing, your school / project will be excluded from Labdoo support and CANNOT receive any further donation.

(2) In the case that an incidence occurs to any of the received items, you will contact the Labdoo team at contact@labdoo.org, including in your email the tagging number of the item(s) related to the incidence and a brief explanation. The following incidences must always be reported:

(2.1) At the end of life of any of the received items, so that the item can be properly recycled.

(2.2) When an item breaks, malfunctions or any change in its status.

(3) Every six months, please send an email to contact@labdoo.org with the list of laptops that you have and their status (working or not working).

(4) Labdoo laptops are offered for free to you for education purposes. In return, you agree to not use the laptops for commercial reasons and you agree not to charge any fee for the usage of the laptops.

(4.1) The donated items cannot be resold to make money or exchange with other valuable items.

(4.2) If discovered donated items are missing, your school / project will be excluded from Labdoo support and CANNOT receive any further donation.

(5) By returning this form filled in, the solicitor confirms owning all rights on sent materials (current or in the future) submitted to Labdoo.org and allowing such content to be publicly available from Labdoo.org. In addition, the solicitor confirms having approval for taking pictures of the children and/or any person benefiting from Labdoo laptops, tablets or any Labdoo donations, from their parents and/or legal guardians. Labdoo.org explicitly points to the fact that sent materials and pictures/photos may be used online and/or offline, and hence that they can be accessed by third parties, and that such pictures are used to help preserve the transparency and accountability of the projects.

We thank you for your commitment to make our world a better place and we wish you best of luck in your humanitarian mission.

The Labdoo Team.
